

ERA Applicant User Guide

Introduction

This guide explains how to use the Employee Retirement Application ERA portal. Applicants should follow the process outlined below to submit their application.

Getting Started

To begin, applicants must create an account. The experience of using this system should take approximately fifteen to twenty minutes for most users.

Submitting Your Application

Once you have completed the required fields, click submit. Your application will then enter the review process. You will receive a confirmation once complete.

Frequently Asked Questions

What if I make an error. You can edit your application before final submission.
How long does review take. Typically five to ten business days depending on volume.
